Professional Summary

As an aspiring web developer, I am skilled in HTML, CSS, Tailwind CSS, and basic JavaScript. I excel in CSS preprocessors, Git version control, and implementing SEO strategies. My expertise includes optimizing web performance, ensuring responsive UI/UX, and integrating accessibility standards. I am eager to collaborate in a team environment while continually refining my frontend development skills.

Projects

Personal Portfolio Website

- Incorporated Tailwind CSS to enhance the portfolio's visual appeal and user experience.
- Deployed the portfolio on GitHub Pages, showcasing proficiency in HTML, CSS, Tailwind CSS, and JavaScript.

ConnectUp - Modern Static Web Design

- Implemented Tailwind CSS for streamlined and visually appealing styling, ensuring a responsive design that enhances user engagement.
- Deployed the website on GitHub showcasing accessibility, online presence, and technical proficiency in front-end technologies.
